Emergency Management
Tank Inspections

Seminole County

Mission

To provide efficient storage tank compliance inspections in accordance with 62-761, Florida Administrative Code (FAC), and regulate pollutant storage facilities within the jurisdictional boundaries of Seminole County.

Business Strategy

As a contractor for an environmentally sensitive program, the Hazardous Materials Storage Tanks Bureau is responsible to the Florida Department of Environmental Protection (FDEP) to perform compliance inspections within Seminole County. This includes routine, enforcement, installation, upgrade, and closure inspections of underground and aboveground storage facilities. Additional responsibilities include maintaining records of inspections, as well as copies of applicable rules, inspection forms, and other program/public assistance information that may be provided to the public. The program is fully funded by the Florida Department of Environmental Protection Inland Protection Trust Fund.

Objectives

Perform inspections to insure compliance and enforcement of Florida Administrative Code, Section 62-761.

Provide public access to files, when requested, that may assist in determining the course of events as they occur in the community.

Verify compliance status of abandoned facilities, when discovered.

Perform reinspections of facilities seeking reinstatement into private insurance programs.

Investigate complaints when received.

Distribute and, as necessary, assist in filling out registration forms for all unregistered facilities.

Performance Measures

	FY 00/01 Actual	FY 01/02 Estimated	FY 02/03 Goal
Existing tank inspections	806	829	840
Installation and inspections	24/120	40/72	50/80
